● Open to new roles

● Relocation ready · one month's notice · no bond

● Consulting and freelance

PROFILE

Field services engineer with more than three years at Huawei Technologies Lanka and **60+ enterprise accounts** across finance, telecom, government, defence, education and hospitality. I own the full delivery cycle: I prove the solution in a POC, design and implement it, get it through acceptance, then support it in production. I work across networking, security, data centre and storage, so multi-domain cases do not stall waiting for the next specialist. Cyber security graduate and **National Champion of the Huawei ICT Competition 2022/23** (Network Track).

IMPACT IN NUMBERS

106+ proofs of concept delivered	175+ deployments	60+ enterprise accounts served	100% KPI completion, every reporting cycle
250+ branches on one SD-WAN	300+ PB object storage across primary and DR	12k+ users on one managed Wi-Fi platform	5+ after-sales cases resolved a day

SIGNATURE DELIVERY CUSTOMER NAMES WITHHELD

SD-WAN · FINANCIAL SECTOR

First Huawei SD-WAN in Sri Lanka

Delivered under an ISP-managed model and scaled from 62 MPLS branches to **250+ multi-link branches** with ZTP, SLA probes, application routing, QoS, IPSec, dual-gateway HA and BGP EVPN.

SD-WAN · GOVERNMENT

SD-WAN for a major government agency

Low-level design, head-office and controller deployment, then **branch-by-branch cutover** and testing on iMaster NCE-Campus over MPLS and Internet underlays.

SCALE-OUT STORAGE · TELECOM

300+ PB object storage, primary and DR

Design, installation, S3 namespaces, **PR-to-DR replication** and failover testing for a mobile operator, plus DNS and migration troubleshooting.

DATA PROTECTION · BANKING

Immutable backup for a commercial bank

500+ TB with WORM retention protecting core-banking workloads; built on site and **accepted by the customer audit on the first pass**.

HCI · DEFENCE

Hyperconverged upgrade across primary and DR

Planned, change-controlled and completed the upgrade of both sites at **200+ VMs per site**, resolved the replication issue and supported VM migration.

WLAN · ISP CLOUD

Managed Wi-Fi at ISP scale

Multi-tenant CloudCampus on an ISP private cloud serving **12,000+ users, 5,000+ devices and 400+ tenants**, with batch, ZTP and feature templates.

EXPERIENCE

- Field Services Engineer · Huawei Technologies Lanka

Feb 2024 – Present

Enterprise Business Group · Colombo · on-site delivery in Sri Lanka and the Maldives · promoted from intern

 - Proofs of concept:** 106+ POCs across data centre, storage, SD-WAN, WLAN and network access control, from lab build to the customer demonstration.
 - Implementation:** DCS clusters up to 10 nodes, 1,000 vCPUs and 300+ VMs with UltraVR and eBackup, live migration from legacy workloads, and WLAN from 5 to 300 APs per site.
 - Beyond the core:** GPON for campuses and multi-island resorts, firewalls, IdeaHub collaboration, and IVS3800 surveillance for ports, logistics and oil and gas.
 - After-sales ownership:** 5+ cases a day; resolved 9+ P1 and multi-week escalations through root-cause analysis and escalation to TAC, GSC and R&D; upgrades, patches and part replacements under change control.
 - Documentation and enablement:** LLDs, RFCs, MOPs, SoWs, UAT plans and RCA reports; 8+ formal partner and customer trainings on SD-WAN, switching, routing, storage and NCE-Campus; intern mentoring.
- Internship Trainee · Huawei Technologies Lanka

May 2023 – Feb 2024

Enterprise Business Group · Colombo

 - Networking, wireless, data centre and security delivery; promoted to Field Services Engineer within nine months.

TECHNICAL EXPERTISE

Datacom: switching, routing and SD-WAN AR routers, CloudEngine switches, iMaster NCE-Campus; BGP, OSPF, VRRP, EVPN, M-LAG, QoS, IPSec, ZTP	Wireless and access control AirEngine WLAN, CloudCampus, CampusInsight; 802.1X, MAC and portal authentication, RADIUS, HWTACACS
Security HiSecEngine firewalls (AV, IPS, URL and application control), NAC policy, ACL design, device hardening	Data centre and virtualisation Huawei DCS: FusionCompute, eDME, UltraVR, eBackup; FusionCube HCI; MigrationDirector; HA and DR design
Storage and data protection OceanStor Dorado all-flash SAN/NAS, OceanStor Pacific scale-out (S3, NFS, HDFS), OceanProtect backup, replication, WORM	Access, collaboration and video GPON (OLT, ONT), eSight; IdeaHub, Smart Classroom, SMC; IVS3800 surveillance

HOW I DELIVER

Presales POCs and demos	HLD and LLD	RFC and MOP	Acceptance testing	Root-cause analysis
TAC and R&D escalation	After-sales support	Maintenance	Partner enablement	Solution consulting
eNSP Pro · SmartKit · EasySuite · Python				

CREDENTIALS

- National Champion, Huawei ICT Competition 2022/23**
Network Track, Sri Lanka; regional round in Indonesia
- OceanStor Dorado Storage Administrator**
Huawei Global Training Center, July 2024
- Peer-reviewed research**
Healthcare IoT security, ResearchGate, 2022

EDUCATION

BSc (Hons) IT, Cyber Security
SLIIT, 2024

LANGUAGES

- English**
Professional working proficiency
- Sinhala**
Native

ON GITHUB

- PishCatcher**
Deep-learning phishing detection for Chrome
- God's Eye**
Machine-learning malware detection web UI
- SecurePy**
VS Code extension that fixes Python security issues

WHAT I BRING TO YOUR TEAM

One engineer who can prove it, build it and keep it running across network, security, data centre and storage. Open to presales and post-sales engineering roles; ready to relocate on one month's notice with no bond, and available for consulting, freelance delivery and collaborations. References on request.
